Music is my passion, and I want to make it my career and be an audio engineer. I want to work at concerts and music festivals. I think I have the right qualities for the job. I'm a musician, and I'm hard-working and flexible. This is important because the working hours aren't regular in the music world. This summer, I'm not going to go on vacation; I'm going to help at a music festival in July. When I graduate, I hope to study sound engineering at the University of Melbourne.
